## Summary

Skillful and driven Full Stack Developer with a passion for building innovative solutions. I began coding at the age of 14, and now at 18, I've developed a solid foundation in modern web technologies through continuous learning and hands-on experience. I'm currently working on a SaaS-based Shop Management System an Accounting Application, while deepening my expertise in System Design and scalable architecture. With a strong commitment to growth, I constantly explore new tools and technologies to enhance my capabilities. My long-term goal is to harness the power of Artificial Intelligence (AI) to develop impactful solutions that solve real-world problems and create meaningful change.
